WORK EXPERIENCE

Second Street | Senior UX Designer
November 2018–Present • St. Louis, MO

`Product Design`   `UI/UX Design`   `Process & Strategy`

Lead designer for a software platform with 2,000 daily active users. At SecondStreet I helped advance the product design process to be more efficient and collaborative, established usability testing and user interview processes, and mentored another designer.

Abstrakt Marketing Group | Web Designer
January 2018–November 2018 • St. Louis, MO

`Design Systems`   `Process & Strategy`   `Website Design`

Implemented a new web design process to help Abstrakt meet business growth demands. My role was to build a design system, fix process pain points, and foster collaboration between departments. With the new process, Abstrakt was able to increase it's output by over 200%.

Modular Design | Founder
March 2017–January 2018 • St. Louis, MO

`UI/UX`   `Design Thinking`   `Client Management`

Founded a design consulting company with the goal of helping businesses figure out the best way to build their product. Collaborated directly with founders and agencies to build prototypes that validated an idea, or learned from failing quickly to reiterate.

CFX Inc. | Designer
September 2016–March 2017 • St. Louis, MO

`Advertising`   `Front-End Development`   `Web Design`

The clients of CFX spans across various industries, products, and services, from national brands to locally-owned businesses. While working at CFX, I collaborated with clients to deliver services such as graphic design, web design, front-end development, and e-commerce.

Hive Network | Design Consultant
April 2015–September 2016 • St. Louis, MO & Boulder, CO

`Product Design`   `Web Design`   `Front-End Development`

In this role, I worked on web applications for many different startups. On most assignments, it was my responsibility to forge a vision with design thinking, prototype experiences, and then develop the front-end.
